### Invitation Letter for ENTECH Summer Course 2024

May 1<sup>st</sup>, 2024

Dear Prof. Dr. Kyawt Khin,

On behalf of the Faculty of Engineering and Industrial Technology, Silpakorn University, we would like to say thank you to Technological University (Maubin) that sent students to join our summer course last year. In order to strengthen the friendship even more closely, this year we would like to warmly welcome one student from Technological University (Maubin) to participate in the ENTECH Summer Course 2024 program, which will be held at Silpakorn University, Sanam Chandra Palace Campus, Nakhon Pathom, Thailand during 16-22 June 2024. (The details about this program are in the attached file via this E-mail.) We offer a registration fee waiver for international students from universities partnering with Silpakorn University. If you know clearly which student will apply or interest to join the course, please let him/her fill in the application form via this google form's link (<https://shorturl.at/yUWZ9>).

\*Note that the registration fee for this course is waived (not including flight ticket).

I most sincerely believe that this visit will strengthen the friendship and goodwill that have already been cultivated among us. I hope to discuss with you all possible cooperative activities that can be done together in the near future. I am looking forward to welcoming you and your students to our university. For more information, please do not hesitate to ask us via email.

Warmest regards,

Asst. Prof. Dr. Chatthanon Bhothikhun

Assistant Dean for International Affairs of Faculty of Engineering and Industrial Technology, Silpakorn University

# ENTECH Summer Course 2024

## **Aim of the course**

Based on the Silpakorn University's strategy of making the university internationally recognized and the mission of the Faculty of Engineering and Industrial Technology to develop English language skills and global mindset for students and strengthen friendships with our partner universities, we offer the "ENTECH Summer Course 2024" for interested international students with whom we have partnerships to join this course. Students participating in this course will have the opportunity to exchange knowledge in engineering, technology, innovation, as well as culture including taking Thai cultural class, studying engineering and technology class, studying sustainability innovation class, visiting factory, and sightseeing tourist attractions.

**Application period :** 1-24 May 2024

**Course period :** 16-22 June 2024

**Venue :** Faculty of Engineering and Industrial Technology, Silpakorn University Sanam Chandra Palace Campus, Nakhon Pathom, Thailand. (about 100 km from Suvarnabhumi Airport with 1h 30m duration time)

**Registration fee :** Free

with free accommodation and some meals, airport pick-up (not including flight ticket).

## **Nominated applicant**

Students from overseas partner universities can apply according to the quota received. The home university shall recommend suitable students based on language ability and academic excellence and submit the information about nominated student in the application form via this google form's link (<https://shorturl.at/yUWZ9>).

**Contact us :** fac-en@silpakorn.edu
